To Whom It May Concern:

My company hired Mr. Kent Walker when we were accused of patent infringement. We ended up suing the other company in Riverside Court for noninfringement and invalidity of that patent and won the case at trial. We also won the case on appeal.

Kent demonstrated an in-depth understanding of the technical issues and was skilled at presenting our case both in the briefs as well as in court. Kent was conscientious and diligent in providing his services to us, and we greatly appreciate his efforts on our behalf.

We recommend Kent very highly and without hesitation.

Sincerely,

James D. Pylant  
Vice President  
Global Precision Inc.  
and Texchem Advanced Products Inc.
